2nd moon descending

3rd moon phase

Chapter 13

SPYKILLS 6

A

HQ:

Virchengatoris says, "Wot, we have a wildcat on our trail... hmmm..."

Geniatric Hakim says, "To what it may consider we have no idea who or what, no what is for certain, **AKA.**"

Geniatric So dam insan suggests, " Why don't you all just open our eyes and look around us. The bugs have been removed. Killed. Dead."

Vircingotaris (AKA), 'must stay on for single missions, take outs.'"

Geniatic Pfhill states, "Look we can scan the localsectors with lowresolution lightamplificationsystem to detect quarks, though they can't do that to us."
